INNOVATIVE PORTABLE DESIGN

Robust Portable Low Design

Verified Static Stability in Adverse Conditions

Hot Dip Galvanized Parts.

Built In Lightning Protection.

LOW COST & ENDURANCE

Avoids Concreting .

No permits required.

Suitable both for Ground

and Roof projects.

Easily accessible for cleaning

and maintenance

Easy to assemble

Technical Characteristics

- **Type: Portable Solar Panels Mounting System**
- **Number of Solar Panels : 2-3**
- **Power: Up to 780 W**
- **Panels make: All**
- **Tilt: 30°**
- **Material: Hot dip galvanized Steel**
- **Dimensions: 2,60 m X 1,70 m X 1,70 m (H)**
- **Beams Weight: 50 Kgr**
- **Total Weight: 570 Kgr**
- **Lightning Protection: Built in wired to earthing**
